Ponies (UK) and NPS members to benefit from dual Winter Qualification.

Ponies (UK) and the NPS are delighted to announce their decision, to allow ponies to also enter the equivalent M&M championship of the other society subject to the correct membership and registration conditions due to the inclement weather and cancellation of qualifying shows.

This is another step for the two societies who share the chair of the confederation of Breeds and Showing Societies to work together to the benefit of their members and other showing competitors.
